

**T A PAI MANAGEMENT INSTITUTE (TAPMI), MANIPAL**  
**COMPREHENSIVE PERFORMANCE MANAGEMENT SYSTEM (CPMS) FOR FACULTY**  
**(April 1, 2022 – March 31, 2023)**

**I. Rationale and Purpose**

TAPMI is an AACSB and AMBA accredited business school stepping into an era of faster growth.

The Association of Advance Collegiate Schools of Business (AACSB) recognizes teaching and learning scholarship as an important category of intellectual contribution (IC) by a business school. According to the AACSB's standard on intellectual contributions, teaching and learning scholarship includes new understandings, insights, and teaching content and methods that impact teaching and/or pedagogy. It is important to ensure that the multitude of activities carried out by faculty members are strategically aligned while retaining their individual creativity and freedom. It is also important to ensure that the institute's reward systems act as motivating factors to attract, retain and develop talented faculty. The Comprehensive Performance Management System (CPMS) is an incentive designed to support these aims and intended to guide the performance of individual faculty towards intended performance dimensions, as determined by the review committee from time to time. In case of underperformance on specifically assigned key deliverables, during the faculty review process, the review committee is entitled to withhold the incentive for the year. Presented here is the set of faculty credit norms to be followed for the academic year 2022-23.

**II. Concept**

TAPMI faculty members have five fundamental functions:

1. Teaching
2. Research
3. Continuing Education (EEP/ FDP)
4. Consulting
5. Administration (Institution Building)

The guiding beacons for the CPMS are the principles of fairness, equity and independence for individual academic growth in tandem with institutional growth. It is kept in mind that TAPMI's mission includes benchmarking with best-in-class institutions. Faculty work output is estimated in terms of credits in order to follow a common assessment platform.

The norms for awarding credit points listed herein are intended to be comprehensive, unambiguous and easy to understand. The norms will be reviewed on a yearly basis to keep them up-to-date. In an event of conflicting interpretation regarding assessment of a given work output, the final authority for resolution rests with the Director.

### **III. Period of Validity**

This CPMS pertains for output during the period **April 1, 2022– March 31, 2023**.

### **IV. Minimum expected work output**

A minimum total of 180 points are to be earned by each faculty member for the academic year 2022-23 subject to the following desirable conditions:

- a) At least 100 points must be achieved through MBA - Core/MBA -BKFS/MBA Marketing/MBA - HRM/MBA – IB and PhD classroom teaching.
- b) The remaining points must be achieved through research or administration.

In addition, as per the research office order dt. May 15, 2020, TAPMI faculty members are expected to publish–research papers in a recognized peer reviewed journal as per their research band.

The teaching workload threshold of 100 hours is indicative. Depending upon the requirements, the Area Chair can ask a faculty member to shoulder up to 180 hours. Any allocation of teaching beyond 180 hours must be mutually agreed upon and recommended to Dean Academics who in turn will forward it to the Director for approval.

The research publication expectation based on the research band is essential and non-negotiable.

If a faculty member falls short of the threshold workload of 180 points, the deficit shall be carried forward and added to the threshold minimum expected work output for the subsequent year (2023-24).

## V. Incentives for Exceeding the Minimum Expected Credit Points

Subject to the satisfaction of above minimum norms in different components, the credit points earned above 180 during the period 2022-2023, will be incentivized as follows: -

Sl.No.	Total Credit Points Earned	Additional Monetary Compensation (subject to TDS)
1	0-180	Nil
2	181-225	Rs. 2500 for each point over and above 180
3	226-300	Rs. 1,12,500 + Rs. 3000 for each point over and above 225
4	≥ 301	Rs. 3,37,500 + Rs. 3500 for each point over and above 301

## VI. Credit Points for the Director

The Director is not entitled to the normal CPMS points laid out in this document. This is because the Director's post is a vocational post, for which the terms of appointment and incentives are decided by the MANCOMM.

## VII. Credit points for Academic efforts/initiatives

### A. Teaching

#### 1. Teaching courses:

- **PG Programs** - Each hour of teaching will be considered as **1 point**.
- **Doctoral Program** – Each hour of teaching will be considered as **1.5 points**.

#### 2. Introduction of a new course and anchoring:

In the year in which the course is taught for the first time at TAPMI, and only in courses where the faculty member is eligible to earn credit, by satisfying the minimum number of registrations. For a course to be considered as new, it has to be presented to the area, recommended by the area and approved by the Curriculum committee.

a. Introducing a new course - designing, course outline, part of teaching, and AOL preparation	<b>NIL</b>
b. Anchoring a course with guest faculty / Coursera courses for PG Programs – course outline, evaluation & grading, AOL preparation etc.	<b>5 points</b>

## B. LADC Advisory

The purpose of Leadership Assessment and Development Centre (LADC) is to (a) assess and (b) develop the leadership potential in students. The advisory is based on 7 integrated psychometric tests scores, which each student of the first year of all campus-based programs obtain on taking the test. PGP-2 students also support the system. There is also a staff member exclusively in charge of the system. The Advisory system is coordinated and directed by the LADC Chairman and supported by the faculty (a faculty team) who conduct one-on-one advisory to each student.

After the Advisory, about 100 students of the PGDM Core program are nominated for the “TAPMI Young Leader’s Program”. They go through a selection process based on multiple criteria. Through the selection process, about 20-25 students are identified. They go through intensive coaching by the selected faculty, over a period of 1 year and several rounds of coaching sessions.

The CPMS points for LADC are as follows:

LADC Chairman	40 points
Faculty who do development Advisory	1 point per student
Coaching for “TAPMI Young Leaders Program” (YLP)	4 points per student

## VIII. Research

The emerging new vision of TAPMI, envisages a much greater emphasis on academic research in management. There are high expectations from our faculty, with respect to publishing in quality publications. Going forward, research visibility and outcomes would be the major vehicle to enhance our national rankings and making our presence felt in global rankings. Hence, while recognizing that all academic work is important and of value, the CPMS points are hereby structured to signal the direction of research outcomes that would enable the institute to attain a ranking in the top ten business schools at national level, as well as to enable it to be visible in important global rankings. Global visibility is obtained by publishing in top ranked journals (A\*/A category). At the same time, national rankings (NIRF) require us to be seen among the SCOPUS indexed journals. This need gave further impetus to us to have a closer look at both ABDC and Scopus list. Given that we aspire to be a triple crown school, our benchmark continues to be ABDC list. However, visibility in national rankings is equally critical and is mandated by the Trust. Hence there is a need to use our resources wisely.

Therefore, it is decided that with effect from **June 1, 2020**, all submissions made to B and C ranked ABDC journals must also appear in the SCOPUS indexed list as on the date of submission. At this stage, we are not placing this restriction on submission to A\* and A level journals. This is in alignment with our pursuit of Research Excellence as also to meet international accreditation requirements.

The following table is a cross-tabular analysis showing a mapping of ABDC 2019 list onto SCOPUS 2019 categorizations. It is evident that about 20% of the B level journals and about 49% of the C level journals are not SCOPUS indexed. Going forward, faculty are advised to avoid making submissions to these 654 journals [173 (B) + 481 (C)]. The following analysis along with the complete list of journals will be made available in the faculty intranet.

	ABDC Categories

### Guidelines

- 1 A research output will be credited only if it is in conformance with TAPMI's mission and published with TAPMI affiliation.
- 2 For joint/collaborative outputs of internal faculty, credit points will be split equally among the internal faculty for all research outcomes. (Refer Office order dated April 24, 2020).
- 3 A research output will be credited only after it is published / presented / completed in its final form. For example, for a paper in a journal, credit points are awarded in the academic year in which the paper appears in the journal and not in the academic year in which acceptance is received from the journal.
- 4 Evidence for each research output has to be presented to the Research and Publication Committee in order to claim credit points.

- 5 Caps have been identified on CPMS points that can be earned from certain types of intellectual contributions (marked “capped”). This means that CPMS points will be awarded only to the extent of the capped limit of points.
- 6 In case of capping, the publication would be given the points available for the next lower level (if present in the category), provided the capping for the lower level has not yet been exhausted.

## **X. COMPENSATION FOR ACTIVITIES OUTSIDE OF CPMS**

### **CONSULTING & OTHER EXTERNAL ACTIVITY**

- a. **Consulting Assignment** for an outside organization or engaging in an external activity that earns remuneration: **The surplus is divided in the 80:20 ratio, with 80 % going to the faculty.**
- b. **Teaching courses in other Institutes** or training programs conducted by other associations is governed by the Office Order on “Policy for Teaching Outside TAPMI” dated Sep 30, 2019.

### **XI. Eligibility conditions for CPMS**

- If a faculty leaves before completion of the academic year, he/she will not be eligible for CPMS. Faculty must be present till the end of the Academic year i.e., March 31, for being eligible for CPMS incentive (refer office order dated Apr 21, 2018).
- In the event of faculty's research output getting published with TAPMI affiliation after their exit from service, the due CPMS points shall be paid as per Institute norms.
- For new faculty joining in the year, their CPMS will be computed pro rata, subject to fulfilling of eligibility norms.
- Faculty who have left the institute for disciplinary issues, won't be eligible for CPMS (refer office order dated Apr 21, 2018).
- For incentive claims for items not listed in this document, a note must be submitted to the Director for prior approval.
- Director reserves the final decision to approve or reject the points claimed by faculty.
